Dream of my life

Everyone have their own dream in ~~my~~^{their} life. Dreams are those things which can be real and also can't be. Everyone works hard to fulfill their dream. I also have a dream of my life. Today I am going to tell^{you} about my dream.

I also want to be successful in life by being lawyer. In simple words I want to be lawyer. And it my aim too. Everyone can take their dream as their aim also and I have done that. I want to be ~~my~~ make my parents proud by being lawyer and ~~giving~~^{feeling} justice to all. I want to make my parents to feel proud when they call my name. I want to make my dream real by studying hard. I know I am not able to understand my parents problem but also I tried to be best for them. I want to be lawyer not only to earn money. I have realised that everyone need justice in this 21st century's society. I have seen many cases in real and in news which can't provide justice to people. Nowadays, many cases, like murdered, raped, kidnapped are taking place in our society. This is because we are not raising

voice for criminals and crimes. So, I want to make my parents, society and other to feel proud by punishing such people of our society. In our country corruption and bribery ~~are~~ ^{is} increasing day by day which cause effect bad in us. I also want to give punishment to those who are corrupted.

I am very happy that my parents also motivates me in this work. Lawyer is not just a simple word, it carries lots of meaning. It means to be truthful, to walk in the way of justice, to protect law, to be the saviour of the law and constitution of our country in and positive and effective manner. ~~I am not suff~~

I am not a adult and able to say like this. but I am very lucky that my parents inform me all these in this ^{little} age too. ~~to~~ They always motivates me for working hard to fulfill my dream.

At ~~last~~ last, I want to complete my essay by saying that Everyone have their own dream, which can be real or can't be but they have to work hard for this. This school level informs us about our dream and what we gonna be in future. I hope I can fulfill my dream ~~with~~ with the support of my parents and make them happy. 😊
