Family Relation

Family is All of the people have there family but so family is the group where there ~~wer~~ will be member to share mutal ideas, thinks and our thought. Relation can be good or bad. Family Relation mean the good or bad relation of a member who like in live in a same roof.

In our daily life we met many people. From that the people may be good or bad. But in our family member we can share the things ^{but not with} that other people they may be good or bad. Family relation have also advantages and disadvantage both.

As advantages in family relation is to share thing and have mutual relation which out.

In disadvantage of family relation some of the relation will be bad and ^{can} also ^{have} negative effect from that family relation. to some of the family members. Some of the family relations are good and some are bad, from that

both aspect. At last, All the family member will be good. Family relation keep ^{give} important role in society. From the good family relation they can get upper part of stage in

the society. If ~~an~~ there is no good family relation ~~then~~ then the family members get trouble from other as well as there from their ^{own} family members. We should maintain good relation in family. Bad relation effect society and family. Those family who doesn't have good family relation they can't be happy from other too.

Family relation ^{can be} play good or bad. Sometimes there may be good and sometimes may be bad. We family relation in our daily life. If family relation should maintain good will be good they get that family will get good stage in society.
